Encouraging Travel to School by Bus, Bike or on Foot

One of the implications of high car dependency in Galway City is significant congestion outside our school gates. You and your family can play a part in helping to alleviate congestion outside your school gate by cycling, walking, carpooling or taking the bus to school. If these options are not possible, your family could play a part in alleviating schoolgate congestion by participating in our new Park'n'Stride Scheme.

What is Park'n'Stride?

Galway City Council working in partnership with An Taisce Green Schools, City Centre schools and local businesses seeks your support to rollout our Park'n'Stride Scheme in Galway City. Park'n'Stride works by encouraging parents to park in nearby designated car parks free of charge (where charges normally apply) for a short period of time, while they walk or scoot their children to school.

Why should my family Park'n'Stride?

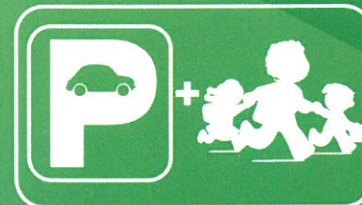

By supporting Park'n'Stride, you and your children will be playing a part in alleviating traffic congestion outside the school gate, which in turn will help to make trips to and from school safer for everyone. You and your children will be getting some physical exercise on the way to and from school. Research also highlights that Park'n'Stride provides parents with some valued time with their children, giving an opportunity to have some fun, while walking to and from school. It is also recognised that children that are active in the morning have better levels of concentration in the classroom.

How does Park'n'Stride Work?

Participating schools will be issued with information and Park'n'Stride stickers for distribution to parents. Parents wishing to become involved in the scheme will need to complete the attached registration form. Once completed, parents will be issued with a Park'n'Stride sticker to display on the front windshield of their car. This sticker will allow parents to park their car in one of the nearby designated car parks free of charge (where charges apply), while they Park'n'Stride their children to school. Please note that each of the designated carparks also act as Drop'n'Hop locations for older children who are capable of independent travel to school i.e. parents can simply drop off/collect their children at these designated carparks.

Look out for this sign!
